LENNOX | QuantumHealth®

Who are my Nurse Care Coordinators?

Quantum Health Nurse Care Coordinators are licensed clinicians available to provide dedicated, one-on-one support throughout your healthcare journey.

Your Nurse Care Coordinator is one nurse assigned to support both you and your family to provide expert guidance on:

- Your employer-provided benefit enhancements
- Managing health conditions like diabetes, high blood pressure, high cholesterol, asthma, chronic obstructive pulmonary disease (COPD), congestive heart failure, kidney disease and high-risk pregnancy
- Preparing for and recovering from inpatient hospital stays
- Ensuring you understand your coverage and have prior approval when needed
- Collaborating with your provider on your care and advocating for your needs
- Solving claims issues and helping you understand your medical bills
- Providing tips on how to improve or maintain your health, and proactively reaching out to you to help manage your health condition(s) and understand your benefits
